EXPERIENCE

Product Designer

EatStreet

Madison, WI

Feb 2014 - Present

- Lead the design of the EatStreet iOS app. From ideation, sketching, prototyping to implementing designs in Xcode
- Act as a team lead for recent iOS releases. The role includes tracking tasks, app crashes and making sure the team is able to deliver features and updates on time
- Conduct and contribute to usability testing to improve the UX of web and mobile products across the board
- Actively working on improving collaboration between team members. Introduced tools to improve development & design processes such as Trello and Marvel
- Work closely with developers and other designers to cover all use cases and iterate on designs during implementation
- Lead the redesign of the Android tablet app, where restaurants receive EatStreet orders.

Web Designer, Intern

DiMario Foods

Oak Brook, IL

Sept 2013 - Jan 2014

- Design the company website in HTML/CSS using Wordpress content management system
- Maintain the company website and make sure the content is up to date

Web Designer, Intern

Azadi

Chicago, IL

Sept 2012 - Nov 2012

- Collaborate with the executive team to understand requirements and deliverables
- Apply iteration-based process while building the website. From sketching, prototyping to implementing the designs in HTML/CSS.
- Work with graphic designer and copywriter to ensure website colors and content are aligned with the company's personality
- Implement the website in Responsive Web Design technique to adapt to different screen sizes including tablets and mobile devices
- Adopt a CSS framework called Foundation in order to expedite the design process

Web Designer, Intern

KSU Coeia

Riyadh, Saudi Arabia

Jun 2008 - Aug 2008

- Work directly with the CEO to gather requirements, and with the copywriter to make sure final design and content meet expectations
- Use Joomla CMS, which made it easier to manage the website content
- Establish the center's main website using HTML and CSS
- Deliver the website in two languages: Arabic and English
- Train an intern on how to update design and content in Joomla CMS
